Allowable Subject Matter

Claims 1-7, 9, 11, 12, and 14-25 are allowed.

The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of the claims is the inclusion of the limitation of "a cover plate operable to substantially span a gap between the first surface and the second surface" (Claim 1, Lines 3-4) and the "fourth member being rigidly attached to the third member" (Claim 1, Lines 17-18), which are not found in the prior art references. The prior art of record, Saunders, discloses a similar joint having a first, second, third, and fourth brackets to accommodate movement between members, but do not show a cover plate spanning a gap between surfaces and also do not show the third and fourth members being rigidly attached.

No teaching or suggestion, absent the applicant's own disclosure to modify the joint as disclosed by Saunders to have the aforementioned elemental features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
